
Public labeled reviews
PRDECT-ID / SmSA
Kamus Alay
Pin dictionary and rules
Minimal cleanup and data audit
Group O/N-equivalent reviews
Freeze train / validation / test splits
Original condition (O)
Minimal cleanup only
Normalized condition (N)
Cleanup + substitution
Independent classifiers under each condition
Word TF-IDF + linear SVM
Character TF-IDF + linear SVM
IndoBERT fine-tuning
Train and select models
Validation macro-F1; equal tuning budgets
Held-out sentiment evaluation
Matched pipelines + fixed-model input changes
Normalization effect and error analysis
Paired intervals; seed variability
Corrected predictions / introduced errors
